Miss Greta

My favourite hobby is doing jigsaws! I like creating lots of different pretty pictures, just like this one of a monkey!

Jigsaws are puzzles with lots of little pieces, just like this one, which all fit together to make one picture!

When I'm doing a jigsaw, I always start by doing the outside edges! And then fill in the middle of the picture!

Mr. William

One of my favourite hobbies is walking. I like to walk on my own and also with friends or family. I like to walk by the river or on the beach.

Another one of my hobbies is cooking. I love to cook new things for my family such as brownies, cakes and curries.

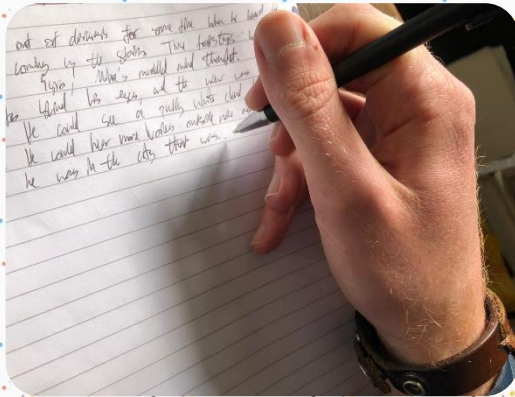

I love to watch football at the stadiums. I also love to watch football on the TV. I have watched football all of my life!

Mr. Duncan

My favourite hobbies are reading, writing and playing football!

I read books because I enjoy stories. I also read books because there are a lot of important things to learn from them! Books help us to be happy and can also make us more creative.

I love writing. I enjoy writing about things that have happened in my life. It helps me to remember things!

I also love football. I have played football since I was a child! Here is a picture of me with my football team. Can you spot me in the picture?
